

roberto.guerra @robertoguerra19 · 3. Dez.

Gilad's talk in short: Java implements OO very poorly. Too much politics when writing java spec. Learn smalltalk (or newspeak). [#hacksummit](#)

Michael Feathers @mfeathers · 2. Dez.

Enjoying Pharo Smalltalk.

Attila Magyar @zeroflag · 11. Sep.

"Smalltalk is, of course, not a language but an object computer" - Trygve Reenskaug

Carlos Iriarte @ciriarte · 6. Sep.

SmallTalk is the most hipster language. It feels like this: "Meh I had that feature before it was kewl."

sumim @sumim · 5. Sep.

"Smalltalk ... But it clearly had a huge influence on Apple. As a programming language, ... As a user interface,"
basalgangster.macgui.com/RetroMacComput...

Daniela Meneses @DAN_11290 · 12. Mai

Lalalilola.... A new brand post!! Smalltalk and Pharo: Unknown rockstars
wp.me/p4qtOF-2I via @DAN_11290

Dave Astels @dastels · 4. Mai

Every time I do something in Smalltalk I think "Why isn't all programming this awesome?" Every. Fucking. Time.

theultimatefoe @V4l3y4rd · 4. Mai

Sometimes life is simply perfect p.twipple.jp/Vb86X
#Pharo @esugsmalltalk
BTW Pharo 3.0 has been released
pharo.org

TheBaggers @TheBaggers · 4. Mai

I'm a happy lisper but the smalltalk folks have live coding down to a
fucking art. Check out Pharo 3.0: youtu.be/n3gtVjGYRLI via @YouTube

~_(ツ)_~ @SeanTAllen · 30. Apr.

today i decided i don't want to use any dynamically typed language that doesn't have at least smalltalk level tooling.

Avi Bryant @avibryant · 6. Apr.

@matasar also, I wish I wrote Smalltalk more. Or ever. /cc @KentBeck
@chadfowler

Michael J. Forster @michaeljforster · 19. März

Every time I turn around, someone's made another cool Smalltalk tool for me: pharo.pharocloud.com/rickshaw @pharoproject

Dave Astels @dastels · 19. März

I love demoing Smalltalk to someone who's never seen it in action. I love the sound of their jaw hitting the floor.

Table XI @tablexi · 19. Feb.

RT @mwrc: Very happy to have @noelrap presenting "But Really, You Should Learn Smalltalk" at MWRC 2014 next month!
mtnwestrubyconf.org/2014/sessions#...

laurent laffont @lalgzs · 4. Feb.

Starting to use PharoCloud ... woo ... awesome ! pharocloud.com #pharo

Brent Gulanowski @BoredAstronaut · 17. Jan.

Admittedly, virtually everything in Cocoa came from Smalltalk. Somewhere, someone is innovating for real, I'm sure.

Patrick Dubroy @dubroy · 9. Jan.

.@raganwald Whenever someone tells me about a cool new language feature, I say, "Didn't Smalltalk have that?" and 90% of the time I'm right.

PeaceCamp2010insider @PeaceCamp2010in · 9. Jan.

The JVM improved when some Smalltalk VM wizards showed up, @bodskibod (& @leashless @miniver). Same story with JavaScript VMs.

Nick Harvey @NicksHarvey · 6. Jan.

Smalltalk is seriously fascinating. I can't believe this was created in the 70's. Way way ahead of its time.

Grady Booch @Grady_Booch · 13. Juli 2013

Smalltalk is my absolute fav language @awbjs @CoderHi Smalltalk is in category of ground-breaking highly influential/low usage languages"

Grady Booch @Grady_Booch · 3. Jan.

I awoke with a start this morning, in the middle of a dream where I was refactoring a Smalltalk program.

Do all geeks dream in code?

Les Hazlewood @lhazlewood · 23. Dez.

Null is the \$1B mistake. Always reinventing languages that *still* are no better than #Smalltalk and #Lisp is the \$1T mistake. #StopIt

Chester @chesterbr · 23. Mai 2012

Choosing a language because it has cheaper developers is like building your house with Lego so you can hire anyone as a construction worker.

Francesco Cirillo @cirillof · 3. Nov. 2013

Programming in Smalltalk is always a pleasure!

Norberto Ortigoza @hiphoox · 1. Nov. 2013

@sergiodnla every language deserves a smalltalk environment :-)

Marc Nijdam @madninja · 31. Okt. 2013

I miss smalltalk the language, environment and tools. Bring back the nineties.

Kent Beck @KentBeck · 30. Okt. 2013

it's such a pleasure to watch a smalltalk program instantly begin breathing and grow gently from there

Jean Bezivin @JBezivin · 18. Okt. 2013

#Pharo RT @taylodl: Smalltalk has had the greatest impact on me, followed by Lisp. Glad to see it making a comeback!
slideshare.net/pharoproject/p...

Yorick Peterse @YorickPeterse · 20. Okt. 2013

Designing an OO programming language is hard. Especially if you go down the "*Everything* is an object" route a la Smalltalk.

Christopher S. @levjj · 27. Sep. 2013

"Look, we're professionals. We use Smalltalk."
